Located beneath the streets of **Ellinwood** is an abandoned underground city that was once home to thriving brothels, bars, gambling halls, barber shops, and even a livery stable. Tour the remnants of these 19th century businesses for a unique view of frontier life in Kansas. Enjoy **lunch** together before we explore and appreciate the mixed-grass prairies, wetland impoundments, and natural salt marshes at the **Quivira National Wildlife Refuge**. Get your camera ready to capture one of the many species that migrate and reside here as we drive through.
